SUMMARY

Software engineering lead team with 11 years of experience in the field of software engineering and analysis. Proven ability to deliver software by working with clients to determine needs and create technology solutions. Expertise in building scalable, secure and extendable SASS applications, able to translate vision into reality.

EXPERIENCE

Senior Developer (Team Lead) | Corecard Software Pvt. Ltd. | Bhopal, Madhya Pradesh | June 2019 - Present

- Managed, developed, and deployed **10+ applications and databases**, enhancing operational efficiency by **30%**.
- Integrated OKTA with over **15 clients**, enabling secure single sign-on and reducing login time by **30%** for CoreCard's infrastructure.
- Performed database administration and development for **20+ databases** and executed web development projects, reducing query response times by **25%**.
- Collaborated with business stakeholders to add **15+ new features** to production databases, increasing user satisfaction by **35%**.
- Provided maintenance and updates for **30+ live client systems**, achieving a **99% uptime** and resolving issues within **24 hours**.
- Supported **50+ existing application modules**, implementing enhancements and reducing issue resolution time by **40%**.

WEB/MOBILE DEVELOPER | – FLAIRSOFT CONSULTING GROUP | Bhopal, Madhya Pradesh | July 2015 - June 2019

- Led the development, deployment, and maintenance of over **15 applications and databases**, improving business process efficiency by **30%**.
- Developed **5+ Android applications and services**, achieving **100% integration** with existing web solutions and reducing data sync issues by **40%**.
- Performed database administration and development for **20+ databases**, reducing query response time by **25%** and ensuring **99.9% uptime**.
- Partnered with business teams to implement **10+ new features** in production databases, enhancing system capabilities and user satisfaction by **35%**.
- Conducted maintenance and updates for **25+ live client systems**, resolving issues within **24 hours** and maintaining a **98% client satisfaction** rate.

Senior Web Developer | – EVA INFOTECH SOLUTIONS | Bhopal,Madhya Pradesh | October 2013 - July 2015

- Led cross-functional teams in large-scale application development, reducing project timelines by 20% and boosting client satisfaction by 30%.
- Managed CMS and eCommerce projects, achieving a 95% success rate and a 25% increase in client retention.
- Mentored junior developers and optimized workflows, improving team productivity by 15% and reducing errors by 40%.
- Implemented new tools and technologies, enabling a 50% increase in project volume with no quality compromise.
- Promoted a collaborative and innovative team culture, enhancing engagement and satisfaction by 20%.

EDUCATION

B.TECH – COMPUTER SCIENCE | MANAV BHARTI UNIVERSITY SOLAN | Solan, Himachal Pradesh | 2013

DIPLOMA IN WEB AND GRAPHICS DESIGN | APTECH | Bhopal, Madhya Pradesh | 2012

CERTIFICATIONS

Data Science with Python | Simplilearn | 2020

- Acquired comprehensive skills in data analysis, machine learning, data visualization, and statistical modeling using Python, enhancing the ability to derive actionable insights and support data-driven decision-making in business environments.

Data Science with R | Simplilearn | 2020

- Gained expertise in statistical analysis, data manipulation, and predictive modeling using R, equipping with the skills to analyze complex datasets, generate actionable insights, and drive data-driven strategies in business environments.

SKILLS

Front-end: React, Angular,Javascript, HTML, CSS

Back-end: Microservice APIs, SOA-based architecture, NoSQL DBs, Mongo DB, Kafka, JMS/EMS, SQL § Data Analytics: ElasticSearch, Kibana, HighCharts, and D3

- **.NET Core**: Proficient in building and maintaining applications using .NET Core and ASP.NET Core frameworks.
- **C#**: Expertise in object-oriented programming, application development, and writing efficient C# code.
- **Entity Framework Core**: Skilled in ORM for database management, including migrations, queries, and data modeling.
- **RESTful APIs**: Experience designing, implementing, and consuming RESTful web services and APIs.
- **Front-End Technologies**: Competent in HTML, CSS, JavaScript, and frameworks like Angular or React for building responsive and interactive user interfaces.
- **UI/UX Design**: Ability to create user-centric designs and enhance user experience using tools and best practices.
- **SQL Server**: Proficient in database design, writing complex SQL queries, and performance tuning.
- **Authentication & Authorization**: Knowledgeable in implementing security features using OAuth, JWT, and role-based access control.
- **Cloud Platforms**: Experience with cloud services such as Microsoft Azure or AWS for deploying and managing applications.
- **Version Control**: Skilled in using Git for version control, branching, and collaboration.
- **CI/CD**: Familiar with continuous integration and continuous deployment practices and tools like Jenkins, Azure DevOps, or GitHub Actions.
- **Unit Testing**: Proficient in writing and maintaining unit tests using frameworks such as xUnit or NUnit.
- **Agile Methodologies**: Experience working in Agile environments, including Scrum or Kanban, for iterative development and project management.
- **Performance Optimization**: Knowledgeable in optimizing application performance and scalability.
- **Communication & Collaboration**: Strong skills in collaborating with cross-functional teams, including stakeholders, developers, and designers, to deliver high-quality solutions.
